

# Sustainable domestic Water Use in Mediterranean Regions

## SWMED

**Priority 2** Promotion of environmental sustainability at the basin level

**Measure 2.1** Prevention and reduction of risk factors for the environment and enhancement of natural common heritage

[www.enpicbcmmed.eu](http://www.enpicbcmmed.eu)

Programme  
funded by the  
**EUROPEAN UNION**

**REGIONE AUTONOMA DELLA SARDEGNA**

## Project in brief

The whole Mediterranean area is characterized by a strong need of new solutions able to provide and sanitations services while reducing water use and wastewater discharge. The **SWMED** project focuses on the optimisation the per capita water consumption at household and urban level through the implementation of water saving devices, reuse of treated wastewater, rainwater harvesting, a pool of technologies known as Sustainable Water Management (SWM).

## Beneficiary

Lazio Region (Italy, Lazio)

## Partnership

1. IRIDRA (Italy, Toscana)
2. SVI.MED – Mediterranean Centre for the Sustainable Development (Italy, Sicilia)
3. Malta Resources Authority (Malta)
4. Ministry of Gozo (Malta)
5. Palestinian Hydrology Group (Palestinian Authority)
6. Centre de Recherches et Technologies des Eaux (Tunisia, Nabeul)
7. Palestinian Water Authority (Palestinian Authority)

## Specific objective

Diffusion of the Sustainable Water Management approach and technologies to improve the sanitation systems of citizens while reducing the per capita water consumption

## Expected results

- National/local "water tables" gathering all water stakeholders
- SWM tailor-made solution database for different settlement typologies to be applied in water policy
- Water policy paper agreed by all relevant stakeholders
- Dissemination of the project results to different groups (citizens, technicians, water authorities, etc)
- Installation of SWM demonstration houses

## Target groups

- Public local bodies, especially municipalities
- Water authorities/utilities and practitioners

## Final beneficiaries

- Local populations
- Environmental NGOs and associations
- Public authorities and environmental agencies
- Consumers' and professional associations

## Duration

36 months

## Budget

- Total budget: € 1.788.385
- Programme contribution: € 1.609.547 (90%)
- Project co-financing: € 178.838 (10%)
